A conditional statement has two parts: hypothesis (if) and conclusion (then). In fact, conditional statements are nothing more than “ If-Then ” statements!

Sometimes a picture helps form our hypothesis or conclusion. Therefore, we sometimes use Venn Diagrams to visually represent our findings and aid us in creating conditional statements. But to verify statements are correct, we take a deeper look at our if-

CONDITIONAL STATEMENT A conditional statement is a statement of the form "If p , then q ." The symbol for this "if...then" connective is the arrow: \rightarrow . That is, the statement "if p , then q " is denoted $p \rightarrow q$ **EXAMPLE 2.2.1** Let p represent "You drink Pepsi." Let q represent "You are happy."
