### A-Level Maths Tests - Math Quiz

When preparing for A Level Maths exams, it is extremely useful to tackle exam questions on a topic-by-topic basis. This means that the revision process can start earlier, leaving you better prepared to tackle whole exam papers closer to the exam. Whilst these questions are predominantly for the OCR and Edexcel exam boards, due to the fact that all exam boards must now all examine broadly the same content, they are useful when preparing yourself for A Level maths exams across all of the four ...

The most challenging questions from the various top school mathematics preliminary examinations were collected, adapted and compiled topically into these legendary sets of question papers. These legendary papers were the essence of many years of compilation and were originally accessible only to students of our tuition class.

### Additional Math Challenging Questions

These questions make suitable bridging material for students with single A-level Mathematics as they begin university - the material is partly revision, partly new material. All 11 sheets cover material relevant to the Mathematics, Mathematics & Statistics and Maths and Philosophy courses; sheets 8, 9 and 10 are not relevant to the Mathematics and Computer Science

degree.

Practice Problems | Mathematical Institute

Mod edit: Since this thread has to cater both to students who want a bit of a challenge and to those who are looking for STEP/BMO-style questions which are considerably more difficult than AS maths, we would appreciate it if you indicated when a question is much harder than anything in AS maths or in a different style.

Hard Questions for the New AS Maths! - The Student Room

Age 14 to 18 Challenge Level: The NRICH weekly challenges are aimed at Post-16 students to provide an interesting, shorter challenge to try out each week which will fit around any usual course of study.
