In *Body Respect*, they explore why diets don't work and alternative paths to better health for people of all shapes. Using peer-reviewed evidence, common sense, and a solid grounding in nutrition science and social justice theory, the authors debunk Obesity Myths and outline the key processes – in our bodies, the sciences, and society – affecting our diet and health as individuals and as a community.

### ~~Body Respect | Bacon & Aphramor~~

Dr. Linda Bacon and Dr. Lucy Aphramor's *Body Respect* debunks common myths about weight, including the misconceptions that BMI can accurately measure health, that fatness necessarily leads to disease, and that dieting will improve health. They also help make sense of how poverty and oppression—such as racism, homophobia, and classism—affect life opportunity, self-worth, and even influence metabolism.
