In perhaps his most important contribution to rhetorical theory and the understanding of human communication, Walter Fisher presents an explanation of his narrative paradigm in Human Communication as Narration: Toward a Philosophy of Reason, Value and Action. This book essentially elaborates on and refines Fisher's previous articles on the narrative paradigm and aims to present a more complete explanation of the theory's roots, as well as its main tenets and relevant applications.

Human Communication as Narration: Toward a Philosophy of ...

Narrative paradigm is a communication theory conceptualized by 20th-century communication scholar Walter Fisher. The paradigm claims that all meaningful communication occurs via storytelling or reporting of events. Humans participate as storytellers and observers of narratives. This theory further claims that stories are more persuasive than arguments. Essentially the narrative paradigm helps us to explain how humans are able to understand complex information through narrative.
