Humour (international English) or
humor (American English; see
spelling differences) is the
tendency of experiences to
provoke laughter and provide
amusement. The term derives
from the humoral medicine of the
ancient Greeks, which taught that
the balance of fluids in the human
body, known as humours (Latin:
humor, "body fluid"), controlled
human health and emotion.

~~Humor, Laughter and Human
Flourishing A Philosophical...~~

The author addresses the relative neglect of humor and laughter among philosophers of education with this volume, where the focus is on the significance of humor and laughter for human flourishing. Central questions are threaded through this work: What does the study of humor and laughter bring to philosophy and specifically to philosophy of education?

wide-ranging theoretical,
methodological, and empirical
perspectives on an important
area of human behavior and
social interaction. This book
should interest many behavioral
scientists and practitioners,
particularly those in social and
clinical psychology, psychiatry,
child psychology and education,
sociology, and related disciplines.

~~Humor and Laughter | Taylor &

~~Humor, Laughter and Human
Flourishing A Philosophical ...~~

This chapter is designed to
contextualize and advance the
conversation among philosophers
of education about humor and
laughter by focusing on some
interesting connections among
humor, philosophy and education.
I begin my analysis by discussing
the nature and purpose of humor
in general, while distinguishing it
from laughter and amusement.
