physiology in MBBS.

Download Physiology Pdf Notes Free - All Medical Pdfs FREE Physiology Lecture Notes, Study Guide and Exam Help. Physiology Lecture Notes. My physiology exam notes were the first set of physiology exam notes here at this medical school which rose above the narrow realm of the lectures to incorporate a broader spectrum of external sources. This was not because of untalented students writing physiology exam notes before me, but merely because the monstrosity of the earlier anatomy, histology & embryology final exam prohibited such a venture.

Chapter 4 Tissues. • Four major tissue types - Epithelial (epithelium) 1. covers and lines body parts (sheets of cells) 2. glandular epithelium a. two major types 1) endocrine glands secrete hormones to blood (no ducts) 2) exocrine secrete products into ducts that open to skin or lumen of organ b. structural classification of exocrine glands 1) multicellular - form a distinctive structure or organ (e.g., sweat, salivary) 2) unicellular - have no ducts but still considered exocrine (e.g ...

Anatomy Lecture Notes Update 2017 - Laney College
Physiology tells us how the bodies of living organisms work. Physiology is based on the gross and microstructure. Both structure and function must be studied at all levels from the cellular to the molecular to the intact organism. All aspects of human physiology evolved in the thousands of inherited units of DNA called genes.
