The Math 5 (3.0) works a little differently than the 2.0. The academic content is the same as always and includes over 100 hours of multimedia instruction! However, each course is now delivered online as a 12-month subscription (per student). This obviously means no more discs (and, importantly, no more need for expensive disc replacements).

Generally, in a textbook, a mathematical theorem will be presented at the beginning of a chapter and then there will be some very neat proof offered next. You get no sense at all, really, of the toing and froing that took place to arrive at this, or how this theorem has come about, or even, in some cases, what problem it was there to solve.
