## [Nikon Sb400 Guide Number - apocalypseourien.be](#)

The Guide Number (GN) is as much about the reflector coverage angle as about the power level.. If the GN of one flash is specified as GN 180, but its narrow zoom coverage angle is concentrating all the power to only illuminate a small bright spot on the wall, and another flash specifies GN 90, but its wide reflector is illuminating the entire room, then we don't know much about the difference.

## [Compare Power Rating of Camera Flashes with Guide Numbers](#)

DSLR Cameras can also be used with optional flash units with higher
