1. Outpatient Oncology  
Acuity Based Staffing  
Model. Julie Larson RN,  
OCN. Background:  
Scheduling oncology  
patients for infusion  
therapy has been based  
on infusion chair time,  
physician ' s schedule,  
pharmacy capacity, and  
number of patients per  
RN. This has proven to  
be ineffective and  
inefficient. Scheduling

# Download Free Outpatient

strictly by chair time based on a set time for each specific drug or regime is inadequate to correctly predict the amount of time each nurse needs with each specific patient.
