Teaching Sensation and Perception

~~Sensation And
Perception~~

Sensation and perception are two separate processes that are very closely related. Sensation is input about the physical world obtained by our sensory receptors,

Read Online Sensation And

~~Perception~~ is the process by which the brain selects, organizes, and interprets these sensations. In other words, senses are the physiological basis of perception.

The sensation is more physical. It entails the simple awareness of various stimuli.

Perception gives meaning to what we sense and can be said it is a mix of sensations with ideas, past experience, and connections with objects or concepts. Sensation does not
