Velocity With Answers Worksheets - Teacher Worksheets

Jun 25, 2015 - This Speed and Experiments Worksheet is suitable for 9th - 12th Grade. In this speed and experiments instructional activity, students read about how to calculate the speed by using the change in distance divided by the change in time. They also read about experimental design and scientific method.

Speed and Experiments 9th - 12th Grade Worksheet ...

Calculating Average Speed: Two Example Questions Question 1. If it takes 3 hours to drive a distance of 192km on a motorway, what would be your average speed in km/h? $\text{Speed} = \text{Distance}/\text{Time}$. $\text{Speed} = 192/3 = 64$. So average speed is 64km per hour. Question 2. What is your average speed in mph if you travel 15 miles in 2 hours and 30 minutes?

Speed Distance Time: Practice Questions & Answers

Practical worksheet for calculating speed using ramps and carts. Students calculate the speed of the cart as it travels down the ramp at different slopes. Practical worksheet for calculating speed using ramps and carts. Students calculate the speed of the cart as it travels down the ramp at different slopes.
