Edward Weiss Journal of Computational Intelligence in Finance

**Financial Modeling** **The MIT Press**  
The current estimate from this model is a 23.6 percent chance that the U.S. economy will be in an NBER-defined recession in January 2020. Just like Tetlock, Arturo liked to extremize the results of the model, so for example a probability of at or above 30 percent is moved to 100 percent and below 30 percent is moved to zero.

**Models Only Get You So Far** **FEDERAL RESERVE BANK OF NEW YORK**  
Financial models like any other models help in simulating real business situations and in predicting the potential financial outcomes of key business decisions. This makes financial modeling (if not developing, then at least understanding them) a 'must have' skill for business decision makers.

**What is a Financial Model and why financial models are** **---**  
Brandon is an experienced real estate professional with expertise in financial analysis related to real estate acquisitions and development. Over the last decade, he has worked in real estate private equity, land acquisitions for a European grocer, corporate financial planning and analysis, and global analytics for both publicly traded and private companies.
