Biblical Hebrew Vocabulary in Context by Miles V. Van Pelt and Gary D. Pratico is a biblical Hebrew language resource designed to reinforce a student's basic vocabulary by reading words that occur fifty times or more in the context of the Hebrew Bible. All 642 of these Hebrew words have been collated into 195 key biblical verses and/or verse fragments to help students practice and retain their Hebrew vocabulary. In lieu of rote memorization, Biblical Hebrew Vocabulary in Context reinforces essential vocabulary by reading words in the context of the Hebrew Bible. The book includes two primary sections. The first section provides room for students to write their own glosses of the biblical verse and to parse as they feel necessary. An English translation is also provided and any term that appears less than fifty times is glossed. Proper names are identified with gray text. The second section of the book provides the same biblical verses from the first section but with minimal room to write glosses and parse and without an English translation for aid. The end of the book includes a Hebrew-English lexicon of all the words occurring fifty times or more in the Hebrew Bible.

A Book-by-Book Guide to Biblical Hebrew Vocabulary is intended to help students, pastors, and professors who wish to read a particular book of the Hebrew Bible in its original language to master the vocabulary that occurs most frequently in the book in question. In contrast to typical Hebrew and Greek vocabulary guides, which present vocabulary words based on their frequency in the Hebrew Bible or New Testament as a whole, this book presents vocabulary words based on their frequency in individual biblical books of the Hebrew Bible, thus allowing readers to understand and engage with the text of a particular book easily and quickly.

Anyone interested in learning to read the Hebrew Bible in its original language will find within the pages of this book all the resources needed to begin this wonderful journey. The book is laid out in four parts. The first part teaches the Hebrew alphabet through a series of lessons. The second part teaches word and sentence structure of the Hebrew language by breaking down each Hebrew word in Genesis chapter one, verses one through five. The Hebrew text of Genesis chapter one is provided for reading and comprehension practices in part three. The fourth part of the book contains charts and dictionaries of prefixes, suffixes, words and roots of the Hebrew language to assist the reader with vocabulary definitions and comprehension. Within a short amount of time the Hebrew student will soon be reading the Bible through the eyes of the author rather than the opinions of a translator. ABOUT THE AUTHOR Jeff Benner has had a long interest in the Hebrew language of the Bible and in 1996 he began researching the ancient pictographic alphabet used by the Hebrew people and other Semitic tribes. He has made many significant discoveries linking the ancient Hebrew culture with the ancient Hebrew language and alphabet. In 1999 Jeff founded the "Ancient Hebrew Research Center" to research and teach Biblical understanding through the alphabet and language to those with little or no Hebrew background. Jeff's current project is the Ancient Hebrew Lexicon of the Bible. This Lexicon defines Hebrew words of the Bible according to their cultural context revealing the original Hebraic meanings of Biblical passages and words.
