New York Times bestselling author Jen Lancaster is here to help you chill the hell out. When did USA become shorthand for the United States of Anxiety? From the moment Americans wake up, we're bombarded with all-new terrifying news about crime, the environment, politics, and stroke-inducing foods we've been enjoying for years. We're judged by social media's faceless masses, pressured into maintaining a Pinterest-perfect home, and expected to base our self-worth on retweets, faves, likes, and followers. Our collective FOMO, and the disparity between the ideal and reality, is leading us to spend more and feel worse. No wonder we're getting twitchy. Save for an Independence Day-style alien invasion, how do we begin to escape from the stressors that make up our days? Jen Lancaster is here to take a hard look at our elevating anxieties, and with self-deprecating wit and levelheaded wisdom, she charts a

path out of the quagmire that keeps us frightened of the future and ashamed of our imperfectly perfect human lives. Take a deep breath, and her advice, and you just might get through a holiday dinner without wanting to disown your uncle.

"Into the maelstrom of unprecedented contemporary debates about immigrants in the United States, this perfectly timed book gives us a portrait of what the new immigrant experience in America is really like. Written as a "guide" for the newly arrived, and providing "practical information and advice," Roya Hakakian, an immigrant herself, reveals what those who settle here love about the country, what they miss about their homes, the cruelty of some Americans, and the unceasing generosity of others. She captures the texture of life in a new place in all its complexity, laying bare both its beauty and its darkness as she discusses race, sex, love, death, consumerism, and what it is like to be from a country that is in America's crosshairs. Her tenderly perceptive and surprisingly humorous account invites us to see ourselves as we appear to others, making it possible for us to rediscover our many American gifts through the perspective of the outsider"--
